

Chartwell Resource Group Ltd. is a consulting firm specializing in services and solutions for the resource sector. Chartwell has a close-knit team, a diverse client base and a reputation for outstanding quality and service. Our offices are located in North Vancouver, Chilliwack, Sechelt and Squamish.

Overview:

Chartwell Resource Group Ltd. is looking for an outstanding individual to join our GIS team. Our mission is to provide the highest calibre of service to meet the needs of our clients, and we are only as good as the people on our team. We are looking for a full-time **JUNIOR GIS DEVELOPER** who is motivated, positive, and dependable. This permanent position will be based out of our North Vancouver office.

What We Offer:

- A diverse range of work with a multitude of clients
- A fun yet professional and safety-oriented work environment
- A competitive salary commensurate with experience
- A comprehensive benefits package along with a profit-sharing program and RRSP-matching
- Detailed on-the-job mentoring and training
- Experience with several enterprise data management systems and a variety of software packages
- Opportunities to grow and build your career in an environment that recognizes talent

Job Description:

We are looking for an individual who gets excited about building web maps and wants to apply their skills in coding and GIS to help develop and maintain data management systems for our Natural Resource and Utilities clients. In this role you will primarily be responsible for the following:

- Creating, testing and reviewing ArcGIS Online maps and apps
- Publishing and maintaining ArcGIS Server web services
- Using Python, SQL, or other scripting language to develop tools and perform tasks
- Spatial data management
- Managing incoming field collected data from clients and staff
- Converting, importing, managing, and manipulating data from a variety of sources
- Performing QA/QC tasks to ensure GIS data integrity
- Troubleshooting issues related to GIS and web-based mapping systems

Qualifications:

- A minimum of one year of GIS experience working on web-mapping projects
- Formal education in GIS with a background in Geography, Computer Science, or other relevant area
- Experience developing tools on the Esri or QGIS platforms
- Relational database experience, especially with PostgreSQL/PostGIS, will be considered an asset
- Experience programming and scripting using Python, SQL, JavaScript, or Arcade
- Excellent data management and cartographic skills
- Strong reasoning and troubleshooting abilities with attention to detail
- Excellent oral and written communication skills with attention to customer service
- Canadian citizenship or legally qualified to work in Canada

Application:

If you are interested in working with us, please forward your resume with cover letter to GISTeam@crgl.ca. Applications will be accepted until the position is filled. We look forward to hearing from you!

Only those selected for an interview will be contacted. We thank all applicants for their interest.
