

CRGL/DWB is a newly merged consulting firm specializing in services and solutions for the resource sector. With a close-knit team, a diverse client base, and a strong reputation for quality and service, the company operates offices throughout British Columbia.

Overview:

We are looking for an outstanding individual to join our team of Resource Professionals. Our mission is to provide the highest calibre of service to meet the needs of our clients, and we are only as good as the people on our team. We are seeking an experienced **Engineering Drafting Technician** who is motivated, positive, and dependable. This position can be based in either our **North Vancouver** or **Prince George**, BC office. After successfully completing the first three months onsite in one of these locations, the role may transition to a **remote arrangement** within British Columbia.

What We Offer:

- Flexible work/life balance and a supportive, tight-knit team
- A comprehensive benefits package, including extended health, bonus program, RRSP matching, professional development allowances, and more
- Opportunities to grow and build your career within a team that recognizes and develops talent
- A fun, professional, and safety-first work environment

What You'll Be Doing:

Applicants should expect primarily office-based duties and will be involved in preparing AutoCAD Civil 3D design packages for engineered crossings, roads, and other resource-related infrastructure projects. Successful candidates will join our team of EGBC/FPBC/CAB/ISA accredited staff.

Responsibilities for this position will include, but are not limited to:

- Resource road and crossing design using AutoCAD Civil 3D
- Lidar based road designs using RoadENG software
- Site surveys using a total station and RTK GPS
- Hydrology and hydraulic analysis for crossing structures
- Preparing technical reports and data analysis

Qualifications:

- 3-5 years experience using **AutoCAD Civil 3D** with a strong emphasis on topographic surface design, grading, and corridor modelling
- Experience working with spatial data and mapping systems
- A positive attitude and a strong attention to detail
- Registered or eligible for registration with either EGBC or the ASTTBC is considered an asset
- Relevant experience in the resource industry of BC is considered a strong asset
- Valid Class 5 British Columbia Drivers License

Compensation:

- The hourly range is between \$35-\$40 and will be commensurate with experience.

Application:

If you are interested in working with us, please forward your resume to engineeringteam@crgl.ca.

Applications will be accepted until the position is filled. We look forward to hearing from you!

We thank all applicants for their interest. Only those selected for an interview will be contacted.
