

Chartwell Resource Group Ltd. is a consulting firm specializing in services and solutions for the resource sector. Chartwell has a close-knit team, a diverse client base, and a reputation for outstanding quality and service. Our offices are located in North Vancouver, Chilliwack, Sechelt, and Squamish.

Overview:

Chartwell Resource Group Ltd. is looking for an outstanding individual to join our Engineering team. Our mission is to provide the highest calibre of service to meet the needs of our clients, and we are only as good as the people on our team. We are looking for a full-time junior to intermediate **CIVIL ENGINEERING TECHNOLOGIST**, to be a key member of our diverse and professional team. The position will be based out of our North Vancouver or Squamish office, with some potential for working remotely.

What We Offer:

- Opportunities to grow and build your career in an environment that recognizes talent
- A fun yet professional and safety-oriented work environment
- A diverse range of work with a multitude of clients and across a variety of sectors
- A competitive salary commensurate with experience, and a bonus program
- A comprehensive benefits package and annual equipment allowance
- A company matching RRSP program
- Company shares ownership opportunities available to eligible employees
- Detailed on-the-job training and mentorship programs

Job Description:

Applicants should expect primarily office-based duties (80 - 90%) and will be involved in preparing AutoCAD Civil 3D design packages for engineered crossings, roads, and other resource-related infrastructure projects. Successful candidates will join our team of EGBC/FPBC/CAB/ISA accredited staff. Responsibilities for this position will include, but are not limited to:

- Resource road and crossing design using AutoCAD Civil 3D
- Site surveys using a total station and RTK GPS
- Hydrology and hydraulic analysis for crossing structures
- Preparing technical reports and data analysis

Qualifications:

- One to three years experience using AutoCAD Civil 3D with a strong emphasis on topographic surface design, grading, and corridor modelling.
- Experience working with spatial data and mapping systems.
- A positive attitude and attention to detail is crucial
- Excellent oral and written communication in English
- Valid Class 5 British Columbia Drivers License; experience working with trucks and ATVs
- Physically fit and able to work outdoors; willing to work in diverse and demanding conditions
- Registered or eligible for registration with either EGBC or the ASTTBC is considered an asset
- Relevant experience in the resource industry of BC is considered a strong asset

Application:

If you are interested in working with us, please forward your resume with cover letter to engineeringteam@crgl.ca. Applications will be accepted until the position is filled.

We look forward to hearing from you!

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
