CHARTWELL

Chartwell Resource Group Ltd. is a consulting firm specializing in services and solutions for the resource sector. Chartwell has a close-knit team, a diverse client base and a reputation for outstanding quality and service. Our offices are located in North Vancouver, Chilliwack, Sechelt and Squamish.

Overview:

Chartwell Resource Group Ltd. is looking for an outstanding individual to join our GIS team. Our mission is to provide the highest calibre of service to meet the needs of our clients, and we are only as good as the people on our team. We are looking for a full-time **GIS ANALYST** who is motivated, positive, and dependable. This permanent position will be based out of our Squamish office.

What We Offer:

- A diverse range of work with a multitude of clients
- A fun yet professional and safety-oriented work environment
- A competitive salary commensurate with experience
- A comprehensive benefits package along with a profit-sharing program and RRSP-matching
- Detailed on-the-job mentoring and training
- Experience with several enterprise data management systems and a variety of software packages
- Opportunities to grow and build your career in an environment that recognizes talent

Job Description:

The successful candidate will create, modify, maintain, display and troubleshoot GIS maps and databases for Natural Resource projects. Working closely with staff and clients, the individual will primarily be responsible for the following:

- Spatial data management and analysis
- Developing and delivering on operational mapping projects with tight timelines
- Managing incoming field collected data from clients and staff
- Converting, importing, managing, and manipulating data from a variety of sources
- Performing QA/QC tasks to ensure GIS data integrity
- Using Python, SQL, or other scripting language to perform tasks
- Maintenance and development of GIS infrastructure
- Troubleshooting issues related to GIS and web-based mapping systems
- Preparing XML files for government submissions

Qualifications:

- A minimum of three years of GIS experience working on natural resource-based mapping projects
- Formal education in GIS with a background in Forestry, Geography or Computer Science
- Working knowledge of Forestry operational mapping
- Experience using Esri, QGIS, and mobile products for data collection, mapping and analysis
- Experience leveraging map series or other methods for automated map production
- Experience programming and scripting using Python, SQL, or Arcade
- Excellent data management and cartographic skills
- Strong reasoning and troubleshooting abilities with attention to detail
- Excellent oral and written communication skills with attention to customer service
- Canadian citizenship or legally qualified to work in Canada

Application:

If you are interested in working with us, please forward your resume with cover letter to GISTeam@crgl.ca. Applications will be accepted until the position is filled. We look forward to hearing from you!

Only those selected for an interview will be contacted. We thank all applicants for their interest.
