What We Offer:

- A diverse range of work with a multitude of clients
- A fun yet professional and safety-oriented work environment
- A competitive salary commensurate with experience
- A comprehensive benefits package along with a profit-sharing program and RRSP matching
- Detailed on-the-job mentoring and training
- Experience with several enterprise data management systems and a variety of software packages
- Opportunities to grow and build your career in an environment that recognizes talent

Job Description:

We are looking for a highly skilled individual to join our team of GIS professionals and developers. As a valued member of the team, you will be playing a key role in building and delivering a suite of web-based GIS and project management tools for the Utilities sector. You will be leveraging your skillset on a variety of platforms and software including ArcGIS Enterprise, ArcGIS Online, and PostgreSQL. In this role you will primarily be responsible for the following:

- Creating, maintaining, and troubleshooting web mapping applications (ArcGIS Online, Experience Builder)
- Supporting field crews with mobile data collection apps (Esri Field Maps, Survey123)
- Creating and updating SQL triggers as well as Python and other scripts
- Developing and delivering on operational mapping projects with tight timelines
- Converting, importing, managing, and manipulating data from a variety of sources
- Spatial data management
- Performing QA/QC tasks to ensure GIS data integrity
- Maintaining and developing in an enterprise GIS environment

Qualifications:

- A minimum of five (5) years of GIS experience
- A degree in Computer Science, Geography or similar plus a GIS Diploma or equivalent experience
- Experience publishing Esri web services in an enterprise or online environment (ArcGIS Server, ArcGIS Online)
- Experience programming and scripting using Python, SQL, and JavaScript
- Working knowledge of Esri developer API and is an asset
- Familiarity with cloud-based services is an asset
- Experience leveraging data-driven pages or other methods for automated map production
- Excellent data management and cartographic skills
- Strong reasoning and troubleshooting abilities with attention to detail
- Excellent oral and written communication skills with attention to customer service
- Canadian citizenship or legally qualified to work in Canada

Application:

If you are interested in working with us, please forward your resume with cover letter to GISTeam@crgl.ca. Applications will be accepted until the position is filled. We look forward to hearing from you!

We thank all applicants for their interest. Only those selected for an interview will be contacted.
